More than 1 in 3 schools buy Studyclix directly for their students.

Get study resources, tools and advice for all year groups, 1st to 6th.

Studyclix is Ireland's most popular study website.

How setting up your school licence works:

1 Decide which year groups to cover and what plan suits your school.

2 We will send you your set up pack with your codes, within 48 hours.

3 Share the code with the students to upgrade their account.

★ NEW Studyclix access for 1st, 2nd and 3rd years can be covered under the Junior Cycle **Schoolbooks Grant**

What option suits your school?

Step 1

Decide which plan suits your school

Plus +

We recommend this plan as the starting point for schools. The students gain access to past questions, supporting video content, audio resources, and more.

Premium ♔

Everything in PLUS as well as all the past mock questions. A great option for schools that want to offer maximum exam questions for students.

Each plan covers all the student's subjects until the end of June.

	Plus +	Premium ♔
Exam Questions by Topic	✓	✓
Mock Exam Questions	1 per topic	✓
Marking Schemes	✓	✓
Full Past Papers	✓	✓
Quizzes	✓	✓
Solution Videos	✓ (Not for mock Qs)	✓
Sample Answers	✓ (Not for mock Qs)	✓

Please note: Boost products sold separately

Step 2

Does your school need a Boost in any subject areas?

Boost is a series of interactive notes and videos that breaks down each topic into bite-sized chunks. Each subject contains over 200 short videos that can be used both in the classroom by the teacher and for independent revision by students. Boost is available in three subjects.

LC Biology Boost 🚀
- ✓ 307 easy-to-follow videos
- ✓ Notes, knowledge checks and tips on all topics

LC Maths Boost 🚀
- ✓ 350 easy-to-follow videos
- ✓ Test-yourself tools to check your knowledge

JC Maths Boost 🚀
- ✓ 200 easy-to-follow videos
- ✓ Notes and examiner advice on all topics

Step 3

How can schools fund their Studyclix access?

Pay directly from school funds
We invoice the school and send an upgrade code to be shared with students and parents. The Schoolbooks Grant can cover the access for 1st, 2nd and 3rd years.

Charge the parents a contribution
Schools can charge a contributor fee to be paid by parents at the start of the year.

Charge the students
We send you a spreadsheet of single use upgrade codes to be given to paid students. The school is invoiced per the quantity of codes used.

Get funding from a local sponsor
Some schools fund their Studyclix access through sponsorship from a local company or third level University. Check out our Sponsor a School page for more information.

Does Studyclix Really Help?

studyclix

Studyclix users obtain **127 more CAO points** in their Leaving Cert than the national average

97%
of students say Studyclix helped them get higher grades

Our rating: **Excellent!** 4.8 stars

Frequently Asked Questions

How long does a school licence take to get set up?

Once the school has confirmed they wish to go ahead with the licence, we will send the codes within 48 hours.

Should I get it for the whole school or just exam years?

The resources and tools on Studyclix are made with all students in mind, not just exam years. We tailor the content available to each year group. For example, first year students receive advice and support on how to develop good study habits.

Are my teachers included in the school licence?

Yes! All teachers at your school get free access too. We also offer a free online training session at your next staff meeting.

Is Boost included in all plans?

No, Boost is a separate product and is added as a supplement to Plus and Premium access. Boost is currently available in Maths for all year groups and Biology for 5th and 6th years.

Why not leave students buying Studyclix independently of the school

Buying a school licence works out far cheaper than letting students buy for themselves. In addition, a school licence means that teachers know that ALL students in their classes have access and therefore can assign work through Studyclix.

What if my students have problems or questions?

Studyclix's support team can be reached on info@studyclix.ie or by live chat on the site and can solve any student questions that might arise.

How will I know students are using it?

Through training of your teachers and regular reporting, we will work with you to make sure that your school maximises the value your school gets out of Studyclix.

Is Studyclix available in Irish?

Yes! You can view & use questions, as well as use the Exam Builder and Papers page. We are working on adding more subjects, features, and notes in Irish in the near future too.

Is Studyclix access covered under the Junior Cycle Schoolbooks grant?

Yes! Schools may use the funding for digital media support, which relates to teaching and learning within curricular requirements. Studyclix access for 1st, 2nd and 3rd year students is allowable under the Schoolbooks Grant for the 24/25 school year.

Does Studyclix access replace the need to buy exam paper booklets?

Once they move to a Studyclix school licence many schools no longer require students to buy all their hard copy exam booklets. Students and teachers can print out any papers they need and downloadable paper booklets are available along with marking schemes, video solutions and sample answers.
